The first program will be Saturday morning at 10:00 o'clock, with J. W. Spencer of Canyon leading. Among those who will conduct songs Saturday will be the following:

E. C. Hawes, Canyon; O. L. Walker, Amarillo; I. O. Durham, Nara Visa, N. M.; H. A. Gilliam, Artesia, N. M.; Borger quartet; F. R. Marsh, La Mesa, N. M.; Sam B. Fletcher, Portales, N. M.; Thos. Jones, Clovis, N. M.; C. H. James, Dexter, N. M.

John F. Taylor of Borger, president, will conduct the entire program. He has been here for several days completing arrangements. It was first agreed to hold the convention at the Palo Duro Canyon State Park, but since no amphitheatre had been provided it was thought best to move the program to the W. T. auditorium.

Railroad Week Is Observed Tuesday By Rotary Club

The Canyon Rotary club observed Railroad Week at the luncheon Tuesday, hearing a talk by J. J. Lane, assistant General Passenger Agent, who told of the development of the Santa Fe. Doug Shirley introduced the speaker.

"During the past 20 years the railroads have not had as close association with the public as they should," stated Mr. Lane. He traced the five year period of the war when every effort of the railroads was to serve the nation; the next five years when 19 billions of dollars were spent in improving the wear and tear of the strenuous war period; the next five years of unprecedented prosperity; and the last 5 year of the depression.

The development of the Santa Fe was traced, and the services rendered through the agricultural, live stock, passenger and freight departments. He paid high compliments to Canyon and the spirit of the people here.

Much interesting information was detailed as to the railroad properties of the United States and the Santa Fe. 31% of the railroads of the world are in the United States. The property is worth 26 billions.

The Santa Fe has paid an average of $20,335 in taxes in Randall county, annually for the past five years. There are 27 employees in the county, with salaries amounting to $7,528. The Santa Fe is one

WORK STARTS FIRST JULY IN FIVE STATES

$1.50 Per Acre Minimum To Be Allowed For Work

FINNELL IN CHARGE

Policy Soon Announced To Carry Project Here

Announcement was made from Washington Tuesday that $5,250,000 had been approved by the President to carry on the work of fighting soil erosion in the Panhandle of Texas. The five Southwestern states, designated as the dust bowl, were given $25,000,000 for this program.

H. H. Finnell of Dalhart was designated to have charge of this project for the five states, comprising Oklahoma, Colorado, New Mexico, Kansas and the Panhandle of Texas.

The final allotment of this money to fight erosion is the result of the strenuous work of Congressman Marvin Jones, backed by the Senators and Representatives of the four other states. Carl Hinton of the Amarillo Chamber of Commerce was in Washington several weeks organizing the members of Congress to present a united request for this program. Mr. Hinton was present when Marvin Jones interviewed the President and told of the necessity of this project.

In a meeting held at Amarillo two weeks ago, Panhandle counties were advised to place soil erosion at the top of their list when requests were formally made for the new work program to be set up from the four billion dollar appropriation. Randall county had already made this request, giving preference to soil erosion work.

It is planned to spend $1.50 per acre as a minimum for this program.

Five CCC camps are being established for this work, one of them just north of Amarillo. It is expected that these camps will be ready to receive men before the end of this month.

It is expected that tthe erosion program will be underway all over this territory during the first part of July.

PANHANDLE MEMBER 1933 PRESS ASSOCIATION

Tom Waggoner of the Claude News has been trying to convert the Canyon News to his way of thinking about money, and upon many occasions has lectured us long and loud. We do not profess to know one single thing about money and after reading Tom's numerous statements, are convinced he knows little more. But we have absorbed a few things during the voyage through life; one of which is that the governments which have gone into the business of printing up huge batches of money soon find its money worthless. That folly has been demonstrated so many times that it is surprising to find men who are actually urging this policy today. No one questions that the President has inflated the American currency to a certain extent. No one questions that he has seriously considered a greater degree of inflation. Just before the breaking point is reached is a mighty good time to stop inflation. The President has determined that this point has been reached. However, Tom, we can hardly believe you meant what you said in charging the President and 40 senators as conniving with robbery of the American people simply because they did not choose to follow your advice. Robbery is a pretty strong word to use against men in public life who are serving their nation through a period of stress and strain when no one knows just which policy or which experiment is the best for the nation. The President is an honest and honorable gentleman; the Senators who voted against inflation are as honest and honorable in their opinions as those who favored inflation. If printing up two or for or six or ten billion dollars is a good thing, why not just go ahead and print up a million or so dollars for each citizen, abolish poverty by law, and make everyone supremely happy while the spree lasts?

Blasting the moratorium laws by the supreme court should mean a revival in real estate loans in this nation. Of course the argument is made that property should be protected from loan sharks, and in this class is included every person who may make loans of either 5 cents or five million dollars. Those who promiscuously cuss those who loan money do not realize that business would be paralyzed if there was no money to loan. Further, they do not realize that no money will be loaned unless the one who makes the loan feels reasonably sure that he has a chance to get it back. When loans and loaning methods become insecure, money remains dormant in the sock or in the bank, or in the tin can buried in the back yard. That is the reason banks are full of money today, with no one to loan it to. It is a very unfortunate situation when loans are made for a greater amount than the collateral is worth. Drastic measures were absolutely necessary two years ago when the economic world was rocking under the weight of the depression. But as a permanent policy, a moratorium is a very bad policy, as shown by the decisions of the courts in deciding against both state and national laws.

Nothing has been so damning to the recovery policies of the New Deal as has been the petty bickerings and jealousies among those upon whom the President has had to rely. Relief is carried out largely by those on relief; financial problems have been entrusted largely to those who have failed in some financial institution; other phases of government have been delegated to those who had made failures in private life, and were seeking jobs merely as meal tickets. If the President could personally direct all phases of government, conditions would be greatly improved. But he cannot do this. This nation has literally murdered every president in recent years by the magnitude of the jobs imposed upon them by public obligations. President Roosevelt has had the supreme job of them all. He has to rely upon others, and many of them failed him.

This is railroad week. The week is set aside for the purpose of directing the attention of the people to the pioneering done by the railroads, and the obligations which the citizens owe to the railroads. Without the taxes derived from the railroads, each and every county, city, school district, and state of the union would be hard pressed for cash. The railroads are a real asset to the nation. Perhaps the railroads have been unfortunate in many of the petty policies directed by officials which have created bad impressions upon the public. But nevertheless, the railroads are very necessary to the life and existence of this nation.

Father's Day will be observed next Sunday. This nation has had a great deal to say about mothers, and rightfully observe Mother's Day in a big way. Fathers are too often neglected, or forgotten entirely. The old boy has had a rather tough time the past five years guiding the family back over the dangerous shoals of depression and drouth. If he has come through with any degree of success, he deserves great praise. He has been facing conditions almost unprecedented in the world's history. Take time to pay some attention to your dad on Father's Day.

Read the constitutional amendments in this issue of The News. This will be the last week they will be published in full. The State of Texas will give The News a hot check for publishing these amendments for the benefit of the voters. The State takes it that every voter in the state should be given the opportunity to read these amendments three months before they are to be voted upon, thus affording ample time for reflection. Do not let this issue of The News get away without reading the amendments.

If you have not visited the Palo Duro Canyon State Park this summer, drive out this week. See what is going on in the way of development of the Panhandle's great park. Visitors from distant points proclaim the Palo Duro one of the scenic wonders of the nation. There are many people in Canyon who have not visited the Park. Before long, it is planned to have a Randall County Day at the Palo Duro, at which time every citizen of the county will be urged to visit the park.

It is good to hear that the Weyerhauser kidnappers, or at least part of the gang, has been apprehended. It will be a wonderful thing if the foolish American sentiment in favor of criminals is not aroused by these arrests. Other nations treat their criminals as criminals; Americans in vast numbers make heroes of their criminals. It is not a good testimony in favor of our type of civilization. The criminal deserves only a fair deal—which he refuses to give his victim.

A general strike to enforce any NRA on the business would not be effective. Organized labor has been instrumental in securing much improvement among the working classes of America, but with business only starting on a revival, a general strike would result in the complete overthrow of all improvements which have been realized.

It is reported that big business is again active buying up various classes of business over the nation. It looks like private capital is seeking an outlet for investment. The stock market continues to improve. The signs of the times are healthy for general improvement.

Without doubt the constitutional amendment providing for an old age pension will be approved in August. If the legislature allows the payment of $15 per month to all of required age, without restrictions, it will add $43,000,000 to the tax bill of Texas. This will increase taxes practically fifty percent, and new sources must be found to raise this amount.

Home building must start in this nation very soon. During the past five years the population has increased about 5,000,000 with little building to take care of the increased population. Good homes are at a premium in Canyon. It will be a fine thing to start a building and improvement campaign in Canyon.

While this is railroad week, we cannot keep from thinking of a loss we sustained last July in a shipment of goods from New York which the shipper gave to a truck line. The loss has not yet been paid by the truck company—eleven months after the claim was filed. The railroads pay off their claims promptly.

In spite of the reactions in Washington through adverse congressional objections and the supreme court decisions, President Roosevelt still remains the political idol of this nation. His pleasing personality, sense of justice, forceful character, insight into national problems, will win for him re-election next year.

Business leaders of Amarillo are very resentful against gambling during the horse races held twice each year. Business leaders in Dallas, Fort Worth, San Antonio and Houston have long been battling against legalized gambling. They have found out that this state cannot gamble itself back to prosperity.

So long as Huey and his friends were on the outside, gambling was wrong in New Orleans. Now that they are in charge, a moderate amount of gambling is approved by the Kingfish. That is as near consistent as Huey ever becomes.

The State of New Mexico will spend $50,000 in advertising the points of interest in that state. This advertising should direct the attention of many people to the wonderful vacation sites in New Mexico.

With the coming of warm, summer days, flies are increasing in numbers. Swatting one now will dispatch with several thousand later in the season.

A cool summer is predicted as a result of the continuous dust of this summer. Scientists say that this dust goes into the upper air, and will reflect the sun's rays so that cooler weather will result.

The people of the United States burned $30,000,000 worth of property last year through careless handling of matches and cigarettes. Care could have saved most of this property.

"50% of all motor wear occurs during the starting period"

. . . say automotive engineers

Measuring cylinder wear with a precision gauge—accurate to a hundred-thousandth of an inch!

Only the oil with the "Hidden Quart" will stay up in your motor and cut down this starting wear!

***Motorists who know these facts will save money:**

Motor oils refined by the usual methods have some oiliness and film strength, but they may form carbon and sludge, which lead to expensive motor repairs.

Other oils may form almost no carbon and sludge, but are so over-refined that they are robbed of oiliness and film strength they need to prevent motor wear.

Germ Processed Oil is refined to eliminate carbon and sludge troubles and then the Germ Process adds *extra oiliness and 2 to 4 times more film strength* than any straight mineral oil, as tests on the Timken machine have proved.

Here are the facts: Oils not Germ Processed drain back into the crankcase when your motor is idle. Bearings, pistons and cylinders are dry when you start. Even in warm weather your motor makes at least a thousand revolutions before the quickest flowing oil can reach all parts. Bare metal grinds against bare metal—destructive wear occurs.

Conoco Germ Processed Oil cuts down this costly starting wear! The patented Germ Process—adding concentrated oily essence to highly refined oil—makes it penetrate and combine with metal surfaces. That penetrative film, forming the "Hidden Quart", becomes part of the metal itself and never drains away.

Hundreds of dry-crankcase runs have proved the "Hidden Quart" lubricating value. Cars using Germ Processed Oil were driven 15 to 75 miles with the crankcase empty but without motor damage!

Germ Processed Oil protects your motor another way. All cars built since 1931 have greatly increased pressures and must have oil of extra high film strength for safe lubrication. Straight mineral oils have no more film strength than they had 10 years ago—some have less!* Conoco Germ Processed Oil, with *2 to 4 times the film strength* of mineral oils, gives modern motors the lubrication they need.

Only Conoco Germ Processed Oil gives full motor protection—when you start, while you drive. You will cut motor wear if you use it!

Mattie Swayne Is Back From Texas University Work

Miss Mattie Swayne returned Monday, June 4, from the University of Texas, where she spent the last semester as exchange-teacher, teaching classes in freshman and sophomore English and doing research work toward a doctor's degree. Her work was in the "Seminar of American Literature" and "Studies in Eighteenth Century Culture."

This is Miss Swayne's first work in the University of Texas. She received her B. A. degree from W. T. S. T. C., and followed it with an M. A. degree from Columbia University, afterward attending the University of Washington at Seattle. Since 1923 she has been a member of the W. T. faculty.

According to Miss Swayne, the professors in the University think highly of students from Canyon. She quoted Dr. Campbell, Professor of American Literature, as considering W. T. students of high scholastic rating.

During her absence Miss Swayne's place here was filled by Miss Polly Crawford of the University of Texas.

Alaska Colonists Draw Farms

Slips of paper in a cardboard box determined the distribution of farms on which 500 families, transported from America's midwest, will carve their futures in Alaska's Matanuska Valley. With Col. Otto F. Olson, holding the box, Martin W. McCormick, former Michigan farmer, is shown above at Palmer, Alaska, drawing the slip designating which 40-acre tract would support him and his family. Don L. Irwin, formerly of Minneapolis, and manager of the colonists, awaits his turn.

Will Joe Louis of Detroit Take Over the Italian Goliath When the Heavyweights Meet in New York on June 25?

BY PHILIP MARTIN

WHILE the Mussolini-Ethiopia dispute has nothing to do with it, the next heavyweight dish on the fistic menu will have an Italo-African flavor.

Its ingredients consist of a huge piece de desistance in the shape of Primo Carnera, and a dash of black pepper personified by dusky Joe Louis of Detroit.

This concoction will be served up on a canvas ring at Yankee Stadium on June 25.

One of the more interested members of the audience will be Champ Maxie Baer. It seems that a Baer Louis set-to has been tentatively scheduled for this fall, and it's only natural that Max should want to size up his future opponent.

Maxie all but annihilated the lumbering Italian in their title go last June, flooring him 11 times. Nevertheless the champ is afraid Primo may upset the dope bucket and cop the decision thus placing one of his huge pedal extremities in the middle of the projected Baer-Louis bout.

Baer holds to the theory that Carnera's long arms may smother Louis' most effective weapon; namely, his short punches.

With all due respect for Maxie's judgment, however, we'll take Joe Louis for ours.

The Detroit black boy has compiled an impressive record in defeating Poreda, Massera, Ramage, Perroni, Birkie, Bary and Brown. These fights have indicated to anybody's satisfaction that Louis packs a dangerous punch, but there seems to be grave doubt in some quarters that he can withstand a withering offensive. Primo will supply the answer on June 25.

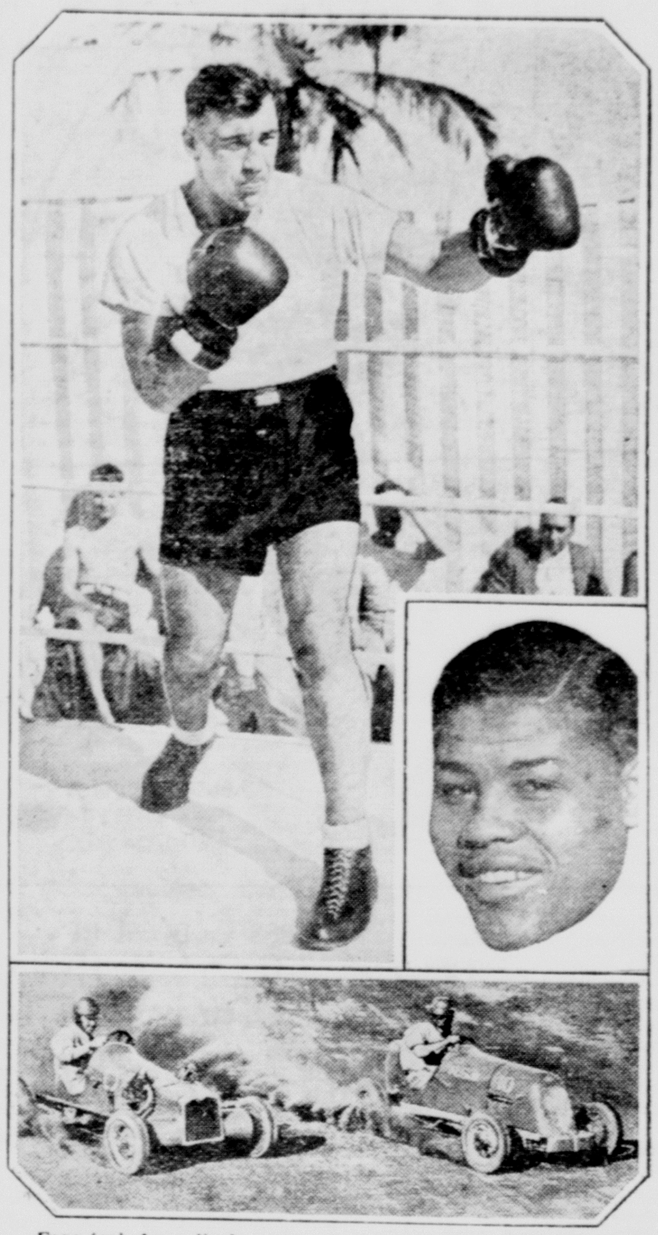

Carnera's outstanding victory since the Baer setback was a nine-round knockout of Ray Impellittiere, another ring mastodon.

THE miniature craze has reached motor race fans in the advent of pocket-size auto derbies, and the hum of tiny engines now can be heard from one end of the country to the other.

This sport had its inception in Europe, reaching our fair shores via Los Angeles, and its lure is such that 20,000 Windy City enthusiasts recently gathered to witness a duel between two premier drivers, Marshall Lewis of Los Angeles, and Tony Willman of Chicago.

Races are run over quarter-mile courses having a clay base, and speeds of 60 miles per hour are not infrequent.

Fans look for a lively scrap when Primo Carnera, above, meets Joe Louis, right, in New York on June 25. The scene below shows two midget racing autos rounding a turn, an exciting phase of the new craze which is invading America.

'Chute Jumping Made Safe

A less risky method is provided by this device, shown being demonstrated at Prospertown, N. J. From the top of a 125-foot steel mast, to which it is hoisted by motor, a 'chute is released and falls gently to the ground, its flight guided by four steel cables.

New Loan Rate of Interest Made Federal Farm Bank

The interest rate on all Federal Land Bank loans made through National farm loan associations will be reduced to 3½ per cent for all interest payable in the one-year period commencing July 1, 1935 and to 4 per cent for all interest payable in the two-year period commencing July 1, 1936, according to G. G. Foster, secretary-treasurer of the Canyon National Farm Loan Association. This announcement was made Monday when Mr. Foster was notified of the new loan rate by A. C. Williams, president of the Federal Land Bank of Houston and General Agent of the Farm Credit Administration of Houston.

This temporary reduction of interest on Federal Land Bank loans having installments due prior to July 1, 1938, is the result of new legislation, the Farm Credit Act of 1935, which was signed by President Roosevelt June 3. Interest payable on installment dates occurring after July 30, 1938, will be at the original contract rate, which is 4¼ per cent on loans now being made through National farm loan associations and varies from 5 to 6 per cent on loans made prior to April 1, 1935.

The Farm Credit Act of 1935 also provides for another important ovation. Under its terms, the Land Bank Commissioner now may make loans to finance the purchase of farms by deserving tenant farmers. Formerly, Commissioner loans could be made only for the purpose of refinancing debts, for repurchasing farms lost through foreclosure and for working capital. The Act extends to January 1, 1940 the time in which the Land Bank Commissioner may make direct loans to farmers on first and second mortgages. The Commissioner loan plus any prior encumbrances on the property may not exceed 75 per cent of the appraised normal value. Commenting on the new provisions Mr. Foster said: "The new provision enabling the Land Bank Commissioner to make loans for the purpose of purchasing farms provides a new opportunity for young farmers and deserving tenants to become farm owners and home owners in their own right. We shall be glad to talk things over with worthy tenants who wish to buy farms of their own."

Since May 12, 1933, when the Farm Credit Administration was established, the Federal Land Bank of Houston, acting for itself and as agent for the Land Bank Commissioner has made 42,738 loans aggregating $129,192,350. This is almost as large as the amount of business carried on the books of the bank on May 1, 1933 after 17 years of operation. The interest rate reduction provided by the Act will affect only Federal land bank loans, all of which are first mortgage loans. The interest rate on Land Bank Commissioner loans, which are made on either first or second mortgages on farm property, will remain unchanged at 5 per cent.

Dress Contest of 4-H Clubs Is Held Friday at W. T.

At the Dress Contest held June 7 in the Auditorium of the Education Building, 26 dresses were modeled by the girls. Sickness prevented others from being shown.

The clothing demonstrators were judged on their record books, pictures, dresses and narrative of their work, including help given to others. Those winning were: First, Juanita Schaeffer of the Fairview Club; second, Martha Hollenstein, Umbarger; third, Margie Bauer, Johnson.

The co-operators in clothing modeled their dresses for the 10-12 year group. Those winning were Myrtle Evans, Geraldine Sharpes and Evelyn Schaeffer all of the Fairview Club. The winners in the co-operators 13 years and above were Elsie Bauer of the Johnson Club, first; Lula Spiser, second; and Ardelle Spiser, third. These girls are all members of the Johnson Club.

During the intermission between the dress contests, the 4-H Club bedroom demonstrators told stories of their work and displayed bedspreads, foot stools and other things they had made for their rooms. The rooms were scored by Mrs. L. F. Sheffy in the spring when the contests started, and again last week after the improvements had been completed by the girls. The rooms were scored on sanitation, lighting, interior finish, furnishings, storage for clothing, and suitability to needs of particular girl.

The winners in the bedroom demonstrators contest were: Evelyn Bauer of Johnson Club, first; second, Adelia Friemel of Umbarger Club and Leona Sharpes of Fairview; third, Abbie Leavitt of the Jowell Club.

After the contests the girls enjoyed a visit through the Panhandle-Plains Historical Museum, directed by Miss Ima Barlow.

The club girls were taken to the Gordon-Cummings ranch where they spent the night. Hiking, swimming and games of all kinds were greatly enjoyed by the group before they broke camp Saturday afternoon.

Those accompanying the group were Mrs. Clarence Beckman, Miss Inez Wesley and Mrs. E. J. Bauer, sponsors of the girls' clubs; Miss Sadie Kate Bass and Miss Gwendolyn Black who led the singing for the group.
